

MERINO by INDIA

MERINO LAMINATES
THE POWER TO CREATE

India is an epitome of expressions.
It's a potpourri of different colours, flavours,
textures and emotions. And each of them have
their own unique essence. Some are sweet,
some are salty, but they all come together to
make India the most vivid and eclectic
destination of the world.

We at Merino, seek inspiration from everything
that makes India the enigma it is. The colours,
the cultures, the flora, the fauna, the urban
structures, the rustic vibes... They all have
inspired us to develop an exhaustive range.
And as you turn the page, you will be a step
closer to our inspired creations.

SPECIAL LAMINATES

India is an amalgamation of diverse cultures. Each of these cultures have their own specialties, like food, traditional attire, languages. The coming together of these divergent cultures is what truly makes India special. Just like our laminates, where distinct features come together to form special laminates.

FINGUARD

Engineered with a specialized technology, the range comprises anti-ngerprint laminates with smooth satin nish. It's anti-bacterial, hygienic and resistant to scratches. The surface has an ingrained moleskin like texture and smoothness.

WOODLANDS

WOODGRAINS

In India, imaginations are found in many forms. And the nest of imaginations are often crafted with wood. From houses to boats, from pens to boxes, there are imaginations made from wood everywhere. And to satiate the needs of such imaginations, our woodgrain range has countless woodgrain patterns.

FINISHES

SPECIFICATIONS

Merino High Pressure decorative laminates comprises of layers of specially selected paper, impregnated with melamine and phenolic resins pressed and hardened under heat and pressure. The process ensures strong bonding, resistance to boiling water and chemical, and increases dimensional stability. Surface protection through special treatment renders all Merino Laminates scratch resistant. It is suitable for a wide range of applications such as wall lining, column claddings, doors, shelves, table-tops, work-tops, counters, vanity units, cubicles, lift linings, store ttings, displays, check out desks etc.

Merino Finishes

CARE TO MAINTAIN YOUR LAMINATES

CARE AND MAINTENANCE

- **Storage:** Sheets should be stored horizontally with the top sheet turned face down and a thick hard board placed on top to protect the material from possible damage and reduce the chances of getting warped. Stored laminate stock should be rotated such that older sheets will be used first. Laminate sheets should be protected from moisture, and should never be stored where they may come in contact with the floor or outside wall. Always carry the sheets vertically. Never slide the sheet but, lift it while moving it from one place to another. We recommend that ideally two people should carry a full-size sheet as carelessness can damage the decorative surface.

- **Stains:** Merino Laminates are resistant to stains belonging to Group 1 and 2 but may take stains of reagents of Group 3 and 4. Group 3 and 4 reagents should not be allowed to spill on the surface, and in case of spillage should be immediately wiped off.

- **Abrasives:** Abrasive pads, scouring powders or cleansers may permanently damage the laminate surface making it susceptible to staining.

- **Harsh chemicals:** Harsh chemicals such as oven cleaner, toilet cleaner, or drain cleaner will etch and discolor the decorative surface. High Pressure Decorative Laminates are not designed to resist continual contact with these chemicals. If any of these products spill over the surface remove immediately, rinse thoroughly, and wipe dry.

- **Hot Objects:** Even though HPL has high heat resistance, exposure to temperatures greater than 135°C is not recommended. Hence, do not place hot frying pans or dishes directly from the oven or cooktop on the laminate surface. As a precaution, protect the surface from heat generating appliances such as pressing irons, toasters, curling irons and electric cookers by using a trivet or insulated pad. Prolonged exposure to temperatures above 65°C may result in separation of the laminate from the substrate.

- **Sharp Objects:** Never use knives or other sharp objects directly on the decorative surface. Use of chopping block or counter saver is recommended.

- **Impact:** Even though High Pressure Decorative Laminates have excellent impact resistance, chipping or cracking may occur. Do not abuse the High Pressure Decorative Laminate by dropping heavy objects such as cans, dinnerware, or glasses or deliberately hammering directly on the surface.

CLEANING

- 1) To clean the surface, use a damp cloth or sponge and a mild soap or detergent.
- 2) Stains belonging to group 2 such as coffee or tea can be removed using a mild household cleaner/detergent and a soft bristle brush.

- 3) If a stain persists, apply a paste of baking soda and water with a soft bristled brush. Light scrubbing, 10 to 20 strokes should remove most stains. Although baking soda is a low abrasive, excessive scrubbing or exerting too much force may damage the decorative surface, especially if it has a gloss finish.

- 4) Stubborn stains belonging to Group 3 and 4, which resist any of the above cleaning methods, may require the use of undiluted household bleach or nail polish remover. Apply the bleach or nail polish remover to the stain and let it stand no longer than two minutes. Rinse thoroughly with warm water and wipe dry. This step may be repeated if the stain appears to be going away and the color of the laminate has not been affected.

WARNING

Prolonged exposure of the laminate surface to bleach will cause it to discolor. Acid based cleaners will permanently damage the laminates. Never allow these cleaners, or bottles, rags or other items contaminated with these cleaners, to come in contact with the laminates. Wipe such areas immediately and rinse thoroughly with water.

- Group 1: Acetone, trichloroethane, toothpaste, hand cream, urea, alcoholic beverage, natural fruit, fruit drink, meat, vegetable oil, water, NaCl (solution), mustard, soap solution, paint remover (kerosene), phenol and citric acid.
- Group 2: Coffee, black tea, milk (condensed and evaporated), cola beverages, vinegar, hydrogen peroxide (3% solution), ammonia (10% solution of commercial concentrate), nail polish remover, lipsticks, water colour, laundry marking ink, ball point ink.
- Group 3: Sodium hydroxide (25% solution), hydrogen peroxide (30% solution), concentrated vinegar (30% acetic acid), acid based metal cleaners, shoe polish, hair coloring, iodine, boric acid, lacquers.
- Group 4: Citric acid (Zero % solution), acetic acid (5% solution).

MERINO PRODUCTS: SUITED FOR ALL YOUR NEEDS

HIGH PRESSURE DECORATIVE LAMINATES: These are made of selective decorative papers and absorbent kraft paper and are available in the latest design trends.

SPECIALTY LAMINATES: The specialty laminates are marked with specialized and unique features of gloss, anti-fingerprint and unicolor, allowing for interesting manifestation in design and look.

GENERAL PURPOSE LAMINATES

Merino High Pressure Laminates is a range available in over 400 designs, 30 nishes and 11 different sizes. A range with dynamic aesthetic look and design, they have increased dimensional stability and high resistance to boiling water, stain and scratch. The range is made for multiple applications including, home furniture items, wall linings, column claddings, doors, shelves, table-tops, work-tops, counters, vanity units, cubicles, lift linings, store fittings, displays, check-out desks, storage units etc.

METALAM METALLIC LAMINATES

A special range, the Metalam Laminates combine the durability of metal with the versatility of laminates. It's designed for vertical interior or ceiling applications, for the addition of special accents, moods and highlights. The laminates with their vivid scintillating shades and varying levels of depths, are ideal for use in hospitality, gaming, entertainment, interior design, set design, retail, signage, display, cruise and furniture industry.

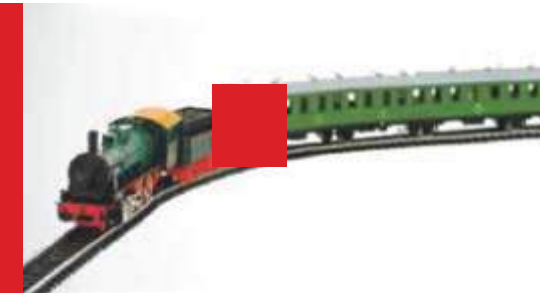

Renew and redefine all possibilities with Finguard. The laminates are powered with a distinctive fingerprint resistance, enabling exceptional finish and durability. Perfectly adapted for horizontal and vertical application, they are draped in a smooth satin finish that highlights the charm of the surface they are placed on.

MR+ TUFF GLOSS LAMINATES

The Merino MR+ Tuff Gloss Laminates is a breakthrough in gloss laminate technology. This stunning range of super gloss laminates is resistant to acid and mar abrasions, making them ideal, when you are looking for adding a layer of lustre and sheen to the interiors.

UNI+ LAMINATES

The range combines the features of decorative laminate surface with solid homogeneous colours, giving the laminates a uniformity in look. The uniformity in color, shape, texture and lines, produce the perfect smooth finish. The laminate is heat, stain and mar resistant. The laminate allows for interesting manifestations to be created on the surface by engraving and routing.

PERFORMANCE LAMINATES: Meticulously designed to enhance surface performance. It is resistant to impact, scratching and abrasion. Moreover, it is insensitive to spots, easy to clean and disinfect.

CHEM+ (LAB GRADE) LAMINATES

Merino Chem+ Lab Grade Laminate is completely resistant to relatively strong chemicals like acids, alkalis, corrosive salts and other staining substances. It can be applied on both horizontal and vertical surfaces for the perfect design, appearance, quality, durability. These laminates can be applied on sinks, counters, lab benches, work surface in chemical, pathogen labs, photographic labs, nursing stations, cabinets, casework fronts, wall panels.

AB+ ANTI BACTERIAL LAMINATES

Merino AB+ Antibacterial Laminate is intended for application where there is a need for additional protection of the surface against bacteria. A very special resin formulation is applied over decorative surface paper to achieve high degree of bacteria growth resistance. Useful in health sectors like hospitals, pathological labs, nursing homes, medical research and in the areas where bacteria can spread rapidly like public buildings, toilets, catering facilities, swimming pools, changing rooms, fitness facilities etc. Domestic bathrooms and kitchens in private households may also be the place of uses.

FR+ FIRE RETARDANT LAMINATES

Give your interiors a makeover without compromising on safety. Merino presents Halogen Free FR+ Fire Retardant Laminates that eliminate the risk of toxic smoke. They are safe and sturdy and come in exquisite designs and colours. These laminates are approved by Warrington Fire, UK, BS-476 with a Class-I Fire Rating and are ideal for the kitchens and fire-prone areas.

ESD+ ELECTROSTATIC DISSIPATIVE LAMINATES

Merino ESD+ Electrostatic Dissipative Laminates are designed to minimize electrostatic charge in work environment. It offers one of the best ESD properties for laminate surfaces in India and provides a safe environment for furniture used in electrostatic protected areas (EPAs). Perfect for places like IT offices, call centres, laboratories, electronic industries, pharmaceutical labs, offices.

POSTFORMING GRADE LAMINATES

The post-forming grade laminate is intended to be used on vertical and horizontal interior surfaces. It enhances the decorative property of the edges of any typical laminate by removing any seams. They can be used for counter edges, desktops, cabinet doors and drawer panels.

PHENOLIC BACKER SHEETS

Phenolic Backer Sheets are used as a surface covering material in conjunction with high pressure decorative laminates and a substrate such as particleboard to balance the assembly.

WRITEONS: These laminates offer great versatility and decorative opportunities. They can be used for dual purposes, as are ideal for both dry and wet erase markers.

CHALK-BOARD LAMINATES

Merino Chalk-board has a special surface for easy erasure of standard writing chalk for vertical and horizontal applications. They are an excellent economic alternative to writing boards for schools and colleges as it renders excellent contrast against chalk marks.

MARKER BOARDS

Merino Marker Board is made with special type of synthetic polymer which imparts durability to the surface and provides easy cleaning of dry and wet erase markers making it perfect for conference rooms, auditoriums, colleges and institutions.

KLASAY ERASABLE PROJECTION BOARD

Merino Klasay Erasable Projection Board combines a dry erase compatibility with a low gloss finish and can be used as a projection board or a marker board surface.

LAMINATED BOARDS: A ready-to-use solution for all your furniture needs. Laminate boards are those in which the laminate is already pasted on the board thereby saving valuable time and labour.

PRE-LAMINATE D BOARDS

The range is a three-layered chip board made by binding wood particles, ranging in size from flakes to splinters. It can be used in multiple areas including, wall panels, cabinets, cupboards, modular office furniture, table-tops, modular home furniture.

POST LAMINATED BOARDS

The range is manufactured by state-of-the-art post-forming machine from BRANDT, Germany. The panels are sold in 'Vanda Form' in different profiles, with customized options. Can be used for executive tables, modular office systems, computer workstations, kitchen cabinet doors and shutters, storage cabinet doors and, shelving systems.

FLUSH DOORS

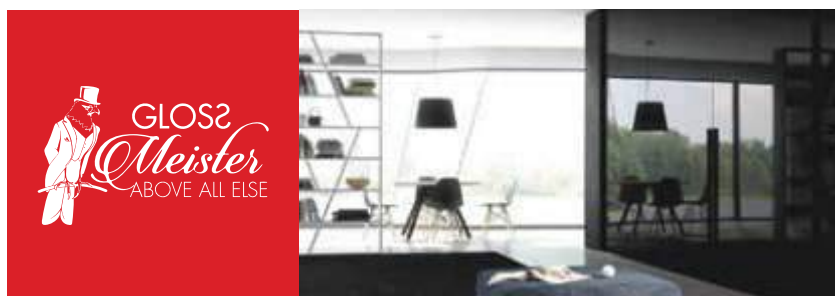

Made from select hard wood timbers, flush doors provide exceptional structural strength and dimensional stability. The timbers are treated with preservative chemicals making them immune to termites and borers. Flush doors are available in Commercial face veneers (both sides), Burma teak veneer (one side and both sides) and, Natural decorative veneers (both sides) etc.

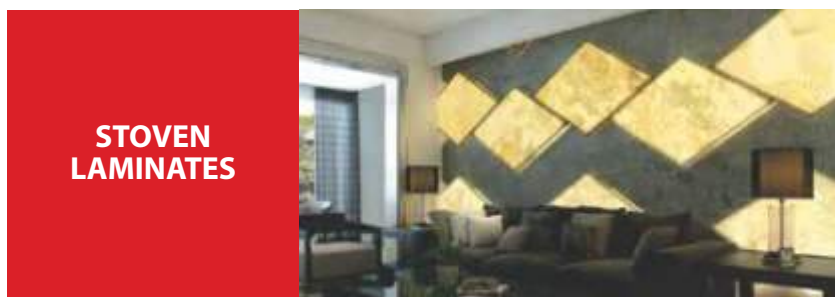

VALUE ADDED LAMINATES: Merino value-added laminates are created to give surfaces an aesthetic look and offer customers a dynamic range to choose from. Merino has been introducing new designs at regular intervals thus keeping in tune with the changing trends and revolutionising the market.

Specifically designed to synchronize each surface by offering a unified design in HPL, Compact Laminates, Dual-Sided Melamine Boards and Edge Bandings.

The breakthrough in gloss laminate technology is nally here. This range is an amalgamation of two high quality gloss ranges – MR+ Tu Gloss and Gloss Meister PU+ acrylic panels. This stunning range of super gloss laminates is resistant to scu and abrasions.

This series oers products that are eco-friendly, lightweight and exible which highlight the natural beauty of stones. Available in 16 rich veneers for a wide range of surfaces. There are three specialized backing for stone veneers: Standard (Fibre Backing), Translucent (Fibre Glass Backing), Fabric (Cotton Fabric Backing) & Engineered (High Pressure Laminate Backing).

Crafted from a unique blend of acrylic resins and natural materials, the sheets can be cut, shaped and formed into a boundless range of designs. The biggest advantage of it is that, unlike other surfacing materials, these can be repaired and restored to their original condition. These solid surfaces can be fabricated and installed in both residential and commercial applications with inconspicuous seams giving your interiors unmatched durability and design exibility.

COMPACT: Merino Compact has an inner core of celluloid bres impregnated with thermosetting resins which are resistant to atmospheric and chemical agents.

Merino Internal Wall Cladding is solid grade Compact High Pressure Laminate made of kraft papers and decorative papers. The Internal Wall Cladding has superior abrasion resistance, high scratch and impact resistance, and impactful grati, moisture and stain resistance. It is also powered with Colour Fastness which makes it resistant to Xenon/Neon light and keeps the colour intact. The range is a delightful blend of classic and contemporary designs and has multiple applications including hotel lobbies, healthcare, hospitality, feature wall, living space, corporate interiors etc.

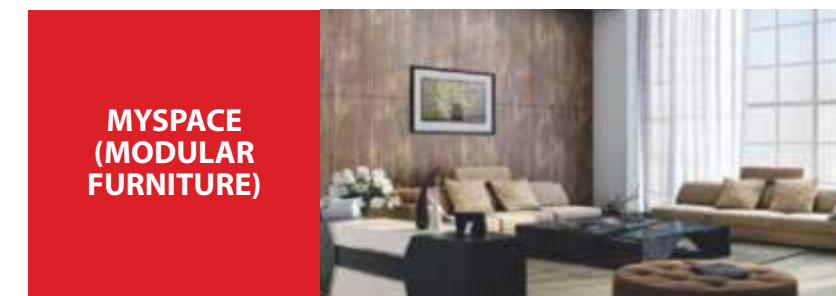

Merino External Wall Cladding is a Solid Exterior grade Compact High Pressure Laminate. It is specially treated with acrylic resin and electron beam curing thus providing it with Weather Resistance and UV Resistance. The range has multiple design congurations, sizes, shapes, and is optimized for multiple applications including residence, shopping malls, hotels, apartments, oce buildings, retail, airports etc. The EWC range is powered with high levels of resistance to weather, UV rays, climatic shock, corrosion, grati, pollutants and abrasion.

It's the fastest growing division in the Merino Group with over 5000 projects already executed across India. Designed for heavy-trac restrooms to provide appealing and practical solutions. It is manufactured with international standards of quality and comes in a variety of colours with nylon, stainless steel and aluminium accessories and ttings. Like restroom cubicles, shower cubicles, changing rooms, locker systems, urinal panels, support grab bars and jet towels to name a few.

PLYWOODS: Plywood is a panel product consisting of thin wood veneers glued together in cross direction under a specic pressure. This cross lamination provides excellent two-way strength and stiness. The veneers used are well seasoned to control their moisture content and prevent warpage.

MYSPACE FURNITURE: Merino brings to your doorsteps the nest furniture, manufactured with state-of-the-art technology and custom made as per your requirements through Myspace, a new-age furniture solutions brand. It is one of the most preferred tailor-made furniture solutions for oces, home, hospitality and retail sector.

Oers a wide variety of trendy and contemporary home furniture like, double beds, wardrobes, chest of drawers, TV units, modular units, dining tables to name a few. All the furniture is designed by professionals.

MERINO ACCESS FLOORING TILE: Merino Access Flooring Tile is an ideal ooring surface that has low static generation and retention. It is a practical ooring solution for computer rooms, general oce buildings, hospital operating rooms and other places that mandatorily require hygiene, easy maintenance and durability.

Specically designed for access ooring systems which require good impact resistance and durability. It is resilient to stain, high abrasion and is easy-to-maintain. Available in attractive colours.
